Assistant Executive Director

FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

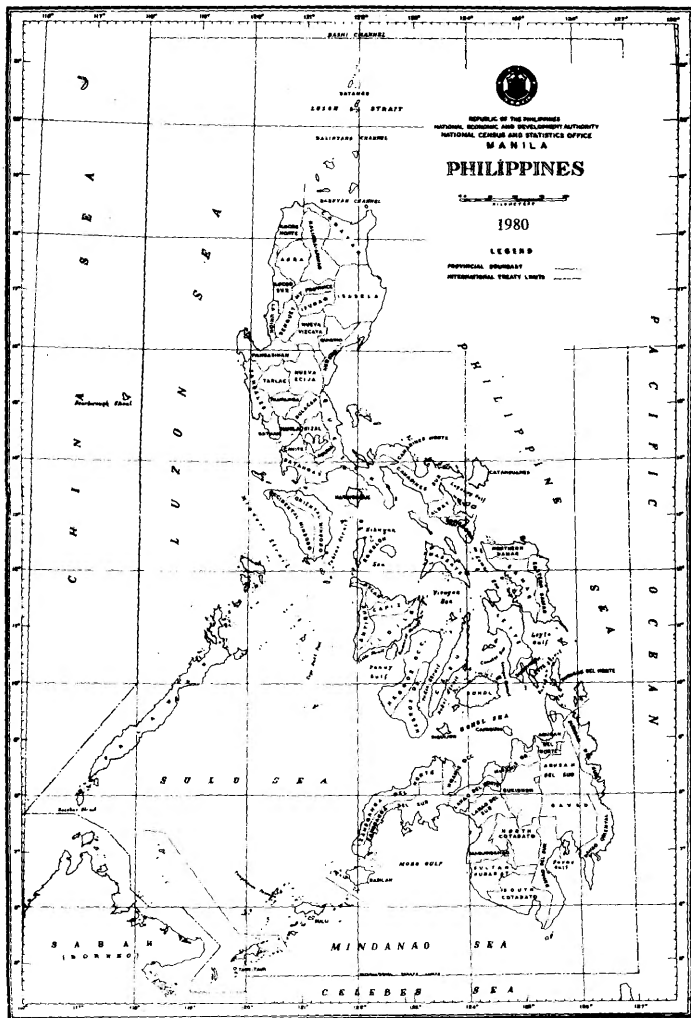

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

TITO A. MIJARES

Manila, Philippines
May 1983

E	PH Form 4 - Collective Household Questionnaire	163

Explanatory Text

GENERAL

INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial, City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Filipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

EXPLANATORY TEXT

POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

DEFINITION OF TERMS AND CONCEPTS

1 - POPULATION

BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
 - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
 - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
 - c. At least three of the following:
 - 1) A town hall, church or chapel with religious services at least once a month;
 - 2) A public plaza, park or cemetery;
 - 3) A market place or building where trading activities are carried on at least once a week;
 - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
 - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

EXPLANATORY TEXT

- or within one year, if abroad;
 - b. students who usually go home to their respective households at least once a week;
 - c. persons working elsewhere who usually go home to their respective households at least once a week;
 - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
 - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
 - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
 - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
 7. Persons found in the household who have no usual place of residence elsewhere;
 8. Persons found in the household who are not certain of being enumerated elsewhere;
 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

EXPLANATORY TEXT

PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse — a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter — the head's own child, stepchild, or adopted child.

EXPLANATORY TEXT

3. Son-in-law/daughter-in-law – refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter – child of the son or daughter of the head.
5. Other relative – a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others – any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single – If never been married.
- b. Married – Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed – A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated – If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced – If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown – If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

EXPLANATORY TEXT

HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

II - HOUSING

BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesoría, condominium) that was vacant;

EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. Single house – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. Duplex – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. Apartment/accesoria/condominium/row house

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. Improvised (barong-barong) – a makeshift or roughly constructed house usually built with salvaged materials.
5. Commercial/industrial/agricultural – buildings not intended for human habitation but used as dwelling units at the time of the census.

Commercial – a building used for transacting business or rendering professional services, such as a storage or an office building.

Industrial – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

Agricultural – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. Other housing unit (natural shelter, boat, etc.)

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. Hotel, lodging house, dormitory, etc. – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. Institutional (hospital/convent/school dormitory/penal institution, etc.) – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. Other collective living quarters – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

NUMBER OF ROOMS IN THE DWELLING UNIT

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

EXPLANATORY TEXT

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop clinic grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

FLOOR AREA OF DWELLING UNIT

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Areas of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway were excluded in determining the floor area.

POPULATION DENSITY OF
MISAMIS OCCIDENTAL PROVINCE
BY CITY/MUNICIPALITY: 1980

Misamis Occidental: A Brief Analysis

Misamis Occidental is located in the north central part of Mindanao, bounded by Zamboanga del Norte on the west and Zamboanga del Sur on the south and southwest. Iligan Bay separates Misamis Occidental from Misamis Oriental on the east and from Lanao del Norte on the southeast. Except along the coastal areas, hills and rolling lands characterize the terrain which grows particularly rugged towards the western border. With an area of 1,939.3 square kilometers, the province constitutes barely 0.65 percent of the total land area of the country.

Misamis Occidental was officially created a province in 1929 when Misamis was divided into two provinces. At present it comprises 13 municipalities and three cities. The cities are Tangub, Ozamis and Oroquieta with the last as the provincial capital.

POPULATION

Misamis Occidental had a total population of 386,328 on May 1, 1980. Over a five-year period following the first quinquennial census on May 1, 1975, its population increased by 30,009, or 8.42 percent, representing an average yearly growth rate of 1.63 percent. This marked a deceleration of the population growth from the 1970-1975 annual growth rate of 2.19 percent. Population density of the province is 199.2, up from 183.7 inhabitants per square kilometer in 1975. Rural dwellers number almost five times as many urban residents — 320,601 to 65,727. The proportion of the rural population to total population decreased to 82.99 percent from the 1975 proportion of 85.23 percent. The share of the urban areas to the total population accordingly increased from 14.77 percent in 1975 by 17.01 percent. This reflected a more rapid rate of growth among urban residents than of rural dwellers. Majority (83.59%) of the males lived in rural communities. Among the females, 17.62 percent and 82.38 percent were urban and rural residents, respectively.

Table A gives the urban-rural distribution of the population by sex in 1970, 1975 and 1980.

A BRIEF ANALYSIS

**TABLE A – URBAN–RURAL POPULATION BY SEX,
MISAMIS OCCIDENTAL: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>386,328</u>	<u>100.00</u>	<u>356,319</u>	<u>100.00</u>	<u>319,855</u>	<u>100.00</u>
Male	193,390	50.06	179,589	50.40	159,302	49.81
Female	192,938	49.94	176,730	49.60	160,553	50.19
Urban	<u>65,727</u>	<u>17.01</u>	<u>52,630</u>	<u>14.77</u>	<u>50,833</u>	<u>15.89</u>
Male	31,732	8.21	25,423	7.13	24,524	7.67
Female	33,995	8.80	27,207	7.64	26,309	8.22
Rural	<u>320,601</u>	<u>82.99</u>	<u>303,689</u>	<u>85.23</u>	<u>269,022</u>	<u>84.11</u>
Male	161,658	41.85	154,166	43.27	134,778	42.14
Female	158,943	41.14	149,523	41.96	134,244	41.97

A BRIEF ANALYSIS

There were 193,390 males and 192,938 females in the population. A slight predominance of the male population was observed in the last two censal years although the sex ratio (number of males for every 100 females) decreased to 100.23 from 101.62 in 1975. Sex ratio differed sharply by area: the urban areas had 93.34 compared with 101.71 for the rural areas.

At each subsequent older age group from the under five years old up to 80 years of age and older, the male and female population of the rural areas separately lessen. In effect, as shown in Figure 1, the rural population exhibits a pyramid structure with the children below 5 years forming its base and those 80 years and over, its apex. In contrast, the female urban population has fewer 5-9 years than 10-14 years, more 15-19 years than any of the younger age group and fewer 35-39 years than 40-44 years, displaying irregularities from the pyramid structure.

AGE COMPOSITION

Less than half (41.00%) of the total population are 0-14 years old; 55.39 percent, 15-64 and 3.61 percent, 65 and over. As shown in the following table, the proportion of the 0-14 age group continued to fall in the last ten years, while the proportion of those 15 to 64 years, considered the productive ages, rose slowly. The recent increase in the proportion of the elderly (65 and over), although small, was more than five times that in 1970-1975. Between 1975 and 1980, the number of children under 15 years grew by 2.65 percent as compared with 11.82 percent of persons 15-64 years and 31.05 percent for the elderly. The corresponding rates from 1970 to 1975 were: 8.08 percent, 13.96 percent and 16.14 percent, respectively.

**TABLE B - AGE COMPOSITION OF THE POPULATION,
MISAMIS OCCIDENTAL: 1970, 1975 AND 1980**

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	386,328	100.00	356,319	100.00	319,855	100.00
0 - 14 years	158,404	41.00	154,317	43.31	142,776	44.64
15 - 64 years	213,967	55.39	191,352	53.70	167,909	52.49
65 years and over	13,957	3.61	10,650	2.99	9,170	2.87

Age structures of the urban and rural population differ notably. Of all urban residents, 36.86 percent are 0-14 years; 58.70 percent, 15-64 and 4.44 percent, 65 and over. The corresponding proportions for the rural population are: 41.85, 54.71 and 3.44 percent, respectively.

The median age of the population is 18 years, an increase of 1 year from the recorded 1975 median age, indicating that the population of Misamis Occidental is growing older.

Overall, dependency ratio is 80.55, down by 5.66 since 1975 as a result of the increased proportion of the 15-64 age group. Dependency ratio is lower among urban residents (70.36) than among rural dwellers (82.80).

A BRIEF ANALYSIS

MARITAL STATUS

Of all persons 10 years of age and older, 46.21 percent were never married; 49.18 percent, married; 4.05 percent, widowed and 0.49 percent, divorced/separated. Only 0.07 percent did not reveal their marital status. As Table C shows, the proportion of single persons declined from 1975 to 1980. It rose, along with the proportion of those married, in 1970-1975. Since 1975, the number of single persons had grown by only 1.98 percent, compared with 17.75 percent for those married. Both increased at higher rates in 1970-75: 14.14 percent and 15.30 percent, respectively.

Less than half (48.47%) of the urban populace were never married compared to 45.72 percent of the rural dwellers. Married persons constituted 46.52 percent of the urban population while their rural counterparts made up 49.76 percent.

Single and married males were nearly the same in proportion with 48.23 percent and 49.28 percent, respectively. The females, unlike in 1970 and 1975, were mostly married (49.09%). The proportion of females who were single dropped to 44.23 percent. Males were less likely to be widowed and divorced or separated than females. Of the males, 2.13 percent were widowed and 0.31 percent, divorced/separated. The corresponding proportions for the females were 5.94 and 0.65 percent, respectively.

A BRIEF ANALYSIS

**TABLE C — POPULATION 10 YEARS OLD AND OVER
BY SEX AND MARITAL STATUS,
MISAMIS OCCIDENTAL: 1970, 1975 AND 1980**

Sex and Marital Status	1980		1975		1970

HIGHEST GRADE COMPLETED

The proportion of the population aged 7 years and over who completed at least one year of elementary education was 58.58 percent; 22.88 percent completed at least one year of high school education and 7.20 percent finished at least first year college. Only 4.13 percent were academic degree holders while 7.03 percent did not have any formal schooling.

Almost one-third (32.61%) of all persons with elementary training completed at most the third grade; 34.19 percent finished either grade four or five and 33.20 percent, grade six or seven. Of those who attended high school, 71.61 percent did not go beyond third year while 28.39 percent went through their senior year. Of those who had at least a year of college education, 83.13 percent completed at most the third year while 16.87 percent attended the fourth or higher year.

Table D shows the distribution of the population 7 years old and over according to highest grade completed in the last two censal years.

A BRIEF ANALYSIS

TABLE D - PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED,
MISAMIS OCCIDENTAL: 1975 AND 1980

Highest Grade: Completed	1980		1975	
	Number	Percent	Number	Percent
Total	308,592	100.00	282,093	100.00
No grade completed	21,694	7.03	24,307	8.59
Elementary	180,764	58.58	177,292	62.63
High school	70,609	22.88	53,615	18.94
College	22,212	7.20	14,921	5.27
Academic degree holder	12,751	4.13	9,295	3.28
Not stated	562	0.18	3,663	1.29

A BRIEF ANALYSIS

LITERACY

Literacy rate for all private household population 10 years old and over was registered at 85.14 percent. As may be expected urban literacy rate (93.63%) was much higher than the rate in the rural areas (83.32%).

Urban male and female literacy rates were nearly the same — 93.68 percent and 93.59 percent, respectively. A slightly higher female literacy rate was observed in rural areas where 84.18 percent of females were literates compared to 82.46 percent for males. Overall, the predominance of female literates (85.92%) prevailed over their male counterparts (84.34%).

LANGUAGE OR DIALECT

Cebuano is the major dialect of 98.35 percent of the population and Subanon, of 1.05 percent. An aggregate of persons reporting other dialects account for only 0.60 percent (Table 7).

A BRIEF ANALYSIS

GAINFUL OCCUPATION

Classified by major gainful occupation, 61.56 percent of the 112,274 gainful workers are agricultural, animal husbandry and forestry workers, fishermen and hunters; 14.18 percent are production and related workers, transport equipment operators and laborers; 6.58 percent, sales workers; 6.47 percent, professional, technical and related workers; 6.45 percent, service workers; 3.14 percent, clerical and related workers and 0.34 percent, administrative, executive and managerial workers. Workers not classifiable by occupation account for 1.28 percent.

Compared to the 1975 results, gains (in terms of percentage points) are noted in four occupation groups, namely: professional, technical and related workers (0.68), clerical and related workers (1.00), service workers (0.57) and production and related workers, transport equipment operators and laborers (1.96). The rest of the occupation groups are on the downward trend by as much as 3.72 percentage points for the agricultural workers.

The following table reflects the changes in the proportion of workers engaged in various gainful occupations in 1975 and 1980:

**TABLE E — GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR OCCUPATION GROUP,
MISAMIS OCCIDENTAL: 1975 AND 1980**

Major Occupation Group	1980		1975	
	Number	Percent	Number	Percent
Total	<u>112,274</u>	<u>100.00</u>	<u>97,974</u>	<u>100.00</u>
Professional, technical and related workers	7,269	6.47	5,671	5.79
Administrative, executive and managerial workers	382	0.34	734	0.75
Clerical and related workers	3,521	3.14	2,098	2.14
Sales workers	7,389	6.58	6,823	6.96
Service workers	7,243	6.45	5,763	5.88
Agricultural, animal husbandry and forestry workers, fishermen and hunters	69,114	61.56	63,956	65.28
Production and related work- ers, transport equipment operators and laborers	15,921	14.18	11,969	12.22
Workers not classifiable by occupation	1,435	1.28	960	0.98

A BRIEF ANALYSIS

INDUSTRY

Misamis Occidental has for its leading industry group agriculture, fishery and forestry – engaged in by 62.65 percent of the gainful workers, majority of whom are in agricultural crop production (87.46%). Community, social and personal services rank second with an employment share of 15.48 percent. The three main sources of jobs in this group are personal and household services (40.23%), education services (27.91%) and public administration and defense (18.20%). Wholesale and retail trade contribute 6.63 percent; transportation, storage and communication share 4.83 percent; manufacturing, 4.16 percent; construction, 3.12 percent; financing, insurance, real estate and business services, 1.49 percent; electricity, gas and water, 0.34 percent; mining and quarrying, 0.13 percent and activities not adequately defined, 1.17 percent.

A BRIEF ANALYSIS

MIGRATION

Approximately 95.44 percent of 329,329 persons 5 years old and over lived in the same city or municipality where they resided on May 1, 1975 and on May 1, 1980. Those who resided in another city/municipality of Misamis Occidental accounted for 1.78 percent; 2.66 percent were residents of another province and 0.12 percent came from a foreign country.

TYPE OF BUILDING

Most (96.25%) of the 68,782 households of Misamis Occidental are occupying single houses. The remaining 3.75 percent live either in duplex (1.86%); apartment/accesoria/condominium/row house (0.45%); improvised structures or barong-barong (0.92%); commercial/industrial/agricultural buildings (0.43%); other housing unit such as natural shelter or boat (0.02%); hotel, lodging house, dormitory (0.04%) and institutional buildings like hospital, convent, school dormitory, etc. (0.03%).

A BRIEF ANALYSIS

A great majority of the households sheltered in single houses (84.69%) and in duplex structures (62.56%) are in the rural sector. Households in other types of buildings are located mostly in urban localities.

Table F shows that 95.80 percent of the total households in 1970 occupied single houses whereas 1.17 percent lived in improvised structures (barong-barong). Ten years after, occupants of improvised structures went down to 0.92 percent of the total households while the percentage of single house dwellers rose to 96.25 percent.

**TABLE F — NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS
BY TYPE OF BUILDING, MISAMIS OCCIDENTAL:
1970 AND 1980**

Type of Building	1980		1970	
	Number	Percent	Number	Percent
Total	<u>68,782</u>	<u>100.00</u>	<u>52,590</u>	<u>100.00</u>
Single house	66,203	96.25	50,381	95.80
Duplex	1,282	1.86	783	1.49
Apartment/accesoria/condominium/ row house/etc.	310	0.45	325	0.62
Improvised (barong-barong)	633	0.92	615	1.17
Commercial/industrial/agri- cultural	294	0.43	478	0.91
Other housing unit: natural shelter, boat, etc.	15	0.02	—	—
Hotel, lodging house, dormitory, etc.	25	0.04	—	—
Institutional (hospital, convent, school dormitory, etc.)	20	0.03	8	0.01
Other collective living quarters (military camp, etc.)	—	—	—	—

TYPE OF OCCUPANCY

Table 1 shows that 88.32 percent of the total households are owners of their dwelling units. The rest of the households are either tenants/lessees (6.50%), subtenants/sublessees (0.16%), or rent-free dwellers (5.02%).

CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

Dwelling units of 33.84 percent of the total households have roofs of strong materials (galvanized iron/aluminum, tile/concrete/brick/stone and asbestos); the remaining 66.16 percent have roofings of light materials (cogon/nipa, makeshift/salvaged materials, and other such as anahaw, etc.). About 55.14 percent of the households in the urban areas have dwelling units roofed with strong materials while the rest of the households have light materials. On the other hand, 70.47 percent of the rural households have dwelling units with roofs of light materials.

A BRIEF ANALYSIS

As to construction materials of outer walls, dwelling units of 67.73 percent of the households have walls of strong materials (galvanized iron/aluminum, tile/concrete/brick/stone, wood/plywood, mixed tile/concrete/brick/stone and wood/plywood, and asbestos) and the rest, of light materials (bamboo/sawali, cogon/nipa, makeshift/salvaged materials and other like anahaw, etc.). In the urban areas, 85.10 percent of the households have dwelling units walled with strong materials. Similarly, majority (64.22%) of the rural dwellers use strong materials for outer walls (Table 2).

YEAR BUILT

As observed, 40.24 percent of the households live in buildings of recent construction (1976-1980); 24.66 percent, 1971-1975; 19.70 percent, 1961-1970; 10.04 percent, 1951-1960; 3.26 percent, 1942-1950 and 2.10 percent, 1941 or earlier (Table 2).

FLOOR AREA OF DWELLING UNIT

More than half (50.47%) of the households occupy dwelling units with floor area of less than 30 square meters. About 29.51 percent live in dwelling units 30-49 square meters; 7.59 percent in units 50 to 69 square meters and 4.93 percent, 70 to 99 square meters. The remaining households (7.50%) have dwelling units with floor area of at least 100 square meters. A higher percentage of households in the urban areas (17.58%) have dwelling units with floor area of 100 square meters and above as compared to their rural counterparts (5.47%). (See Table 3.)

TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND

An estimated 60.65 percent of the 60,749 households owning their dwelling units also own the land where the structure is erected. The remaining households are either lessees or sublessees (11.35%); farm lessees/agricultural tenants of landowners (17.68%); under other legal tenure (5.21%) or no tenure at all like squatters, etc. (5.11%). (See Table 4.)

SOURCE AND USE OF WATER SUPPLY

For drinking water, 22.98 percent of the households use the faucet, community water system; 20.08 percent, tubed/piped deep well; 3.74 percent, tubed/piped shallow well; 21.01 percent, dug well; 31.68 percent, spring and 0.51 percent, rain, lake, river, stream, etc. For kitchen use, 20.99 percent likewise utilize the faucet, community water system; 18.99 percent, tubed/piped deep well; 3.71 percent, tubed/piped shallow well; 24.75 percent, dug well; 30.51 percent, spring and 1.05 percent, rain, lake, river, stream, etc. For washing clothes, 15.15 percent use water from faucet, community water system; 12.31 percent from tubed/piped deep well; 2.47 percent from tubed/piped shallow well; 12.17 percent from dug well; 16.98 percent, from spring and 40.92 percent from rain, lake, river, stream, etc.

KIND OF LIGHTING FACILITIES

Electricity comes out as the lighting facility of the majority (70.48%) of the urban households. About 28.68 percent use kerosene; 0.71 percent, liquefied petroleum gas (LPG); 0.09 percent, oil and 0.04 percent use other kinds such as candle or wax. A different pattern is observed in the rural areas: majority use kerosene (75.68%); 21.60 percent, electricity; 2.51 percent, LPG; 0.08 percent, oil and 0.13 percent, other types. As a whole,

A BRIEF ANALYSIS

kerosene is most widely used (67.77%) in the province, followed by electricity with 29.82 percent. Users of LPG, oil and other types constitute 2.21 percent, 0.08 percent and 0.12 percent, respectively (Table 5).

COOKING FUEL

Wood or charcoal is popularly used by 88.82 percent of the households in the province. Approximately 5.12 percent use kerosene; 1.81 percent, electricity; 1.81 percent, liquefied petroleum gas and 2.44 percent use other kinds of cooking fuel. About 81.47 percent of the urban households use wood or charcoal for cooking. The remaining households use either LPG (7.03%), electricity (6.27%), kerosene (3.69%), or other kinds (1.54%). In the rural areas, 90.31 percent use wood or charcoal; 5.40 percent, kerosene; 0.92 percent, electricity; 0.75 percent, LPG and 2.62 percent, other kinds (Table 8).

TOILET FACILITIES

Around 15.75 percent of the households have water-sealed with sewer/septic tank for their toilet facility while 41.41 percent have water-sealed with other depository. On the other hand, 21.91 percent use closed pit (antipolo, etc.) type; 9.99 percent, open pit and 0.76 percent, other types such as pail system, etc. There are still 10.18 percent without toilet facilities.

Urban households have better toilet facilities than their rural counterparts. More than three-fourths (76.49%) of the urban households use either the water-sealed with sewer/septic tank or the water-sealed with other depository type. Only 19.97 percent use either the closed pit, open pit or other types while 3.54 percent do not have toilet facilities. On the other hand, 53.25 percent of the rural households use either the water-sealed with sewer/septic tank or the water-sealed with other depository type; 35.23 percent use either the closed pit, open pit or other types and about 11.52 percent have no toilet facilities whatsoever.

OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

Nearly two-thirds of the households (64.58%) reported that they own radios; 2.45 percent have television sets and 6.89 percent have refrigerators or freezers. Among the urban households, 72.91 percent own radios; 9.09 percent have television sets and 23.63 percent, refrigerators or freezers. In the rural areas more than half of the households have radios (62.90%) while a very low percentage have television sets (1.11%) and refrigerators or freezers (3.51%).

HOUSING CENSUS QUESTIONS
(Specify Code or Enter Appropriate Code If Required.)

H1 to H4 are to be marked only of the first sample household in every building. (Repeat entries for other sample households in this building.)

H1. What type is this building house?

- 1 Single house
- 2 Duplex
- 3 Apartment/Accessory/Condominium/Row house (apartment)
- 4 Commercial/Industrial/Agricultural
- 5 Other building with rental units, hotel, etc.
- 6 Hotel, lodging house, dormitory, etc.
- 7 Institutional (hospital/convent/school)
- 8 Other (prison, jail, etc.)
- 9 Mobile home, trailer, etc.

H2. What construction material is the roof?

- 1 Galvanized Iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Asphalt
- 4 Copper/Sheet
- 5 Metal/Sheet/Concrete
- 6 Other (bamboo, etc.)

H3. What construction material is the floor?

- 1 Galvanized Iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Wood/plywood
- 4 Other of the Concrete/Brick/Stone and Wood/plywood
- 5 Bamboo/Sheet
- 6 Metal/Sheet
- 7 Cement/Brick
- 8 Other (bamboo, etc.)

H4. When was the building house built?

- 1 1980
- 2 1979
- 3 1978
- 4 1977
- 5 1976
- 6 1975
- 7 1974
- 8 1973
- 9 1972
- 10 1971
- 11 1970

CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me or ascertained with the care and regularity prescribed by the National Census and Statistics Office.

Name of person accomplishing the form (Printed Name & Sign) _____
 Date _____ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to whom they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject management to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosy or fever colonies, sanatoria of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infants, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (wellfare). b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians, etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay at the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/men-at-arms, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS, PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddies, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEANGOING AND INTERISLAND/COASTAL VESSELS OR DESP-SEA FISHING VESSELS

- a. Filipino crew members of ocean going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or despa fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living under the camps
